Paving with HEI-WAY® Premium – August 11, 2009 Ligonier Township, Westmoreland County

Roadmaster: Tim Komar, 724-238-7464
Job: Serena Road, 0.3 miles, tar & chip base
Crew: 5 men including two drivers

AFTER

PAVING

Flows through coal hole, no need to open gate

Great flow with no heat to box

Laying down near the top

First side laid and rolled

Steep hill? No problem.

Starting second side, uphill

BEFORE

Downhill view, recent E5 application

Downhill view, deteriorated shoulder

Alligator cracking and patch

Pothole at edge

Paving with HEI-WAY® cold asphalt material is a big time- and money-saver, especially for smaller townships with limited budgets and crews.

With a small crew and basic equipment, you can do paving, mechanical patching, road widening, shoulder reinforcement, or smoothing of rutted roads.

You can do all this out of a PennDOT-approved stockpile¹, at your own pace, and put your dollars to work directly on your roads, not in the contractors' pockets.
